

BPI Review Form 070520

Book Name:	<u>Advanced Research in Biological Science</u>
Manuscript Number:	Ms_BP_8219E
Title of the Manuscript:	DARWINIAN POND SYSTEM AS A MODEL FOR THE ESTABLISHMENT OF LIFE ON THE ARCHAIAAN EARTH
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	The model of Darwinian Pond System sheds new light on the environment that contributed to the emergence of life.Represents an interesting macroscopic open chemical system far from equilibrium.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	The different sections of the manuscript look appropriate	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The following reference should be added: Westall et al. (2023) Setting the geological scene for the origin of life and continuing open questions about its emergence. Front. Astron. Space Sci. 9:1095701. DOI: 10.3389/fspas.2022.1095701
