Please provide your comments regarding the appropriateness of different sections of the manuscript.	The authors provide a new algorithm and do not analyse it, neither theoretically, nor numerically. Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The list of references is very short and outdated. The most "recent" publication is dated by 2017, the others are much older. Correspondingly, a "state-of-the-art" provided in Section 1 does not represent the current progress in the area.
