BPI Review Form 070520

Book Name:	Research Updates in Mathematics and Computer Science
Manuscript Number:	Ms_BP_7310C
Title of the Manuscript:	Investigating meteorological drought impact on groundwater in the aquifer system of Xanthi plain, NE Greece, through f
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment(If agreed highlight that part in the manual here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, the manuscript important for the scientific community. The use of fuzzy regression of Tanaka method for drought analysis is very helpful method in absence of sufficient data.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	yes the title of the article suitable	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	yes the abstract of the article comprehensive	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes, But need to focus on headings and its format	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	The manuscript is very well written. The abstract is consolidated. Key words should not be more than 5 or 6, also study area should not be part of key words. Introduction is also very good covering majore literatures and successfully explaining the need of research. Representation of detailed methodology and analysis is strong aspect of this manuscript. The conclusion section is also satisfactory.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The author need to focus on referencing style and should follow a single method of referencing style. Other than this references are up to recent and sufficient.	

PART 2:

		Author's comment(if agreed wit that part in the manuscript. It is n feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

fuzzy linear regression analysis
d with the reviewer, correct the manuscript and uscript. Authors must write his/her feedback

with reviewer, correct the manuscript and highlight s mandatory that authors should write his/her
