

BPI Review Form 070520

Book Name:	Current Approaches in Engineering Research and Technology
Manuscript Number:	Ms_BPR_1239
Title of the Manuscript:	Novel Technologies for Design and Analysis of Switching Mode Power-Supply Circuit Based on Solitary Electromagnetic Wave Theory
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes In this work new design methodologies of the switching mode power supply circuit (SMPC) are presented. This work finds application in suppression of EM interference in circuits.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	After introduction, SEMW theory and EM analysis is presented, before this, literature survey could have been added.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	References are proper, include few more recent works(year 2020 onwards)	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
