Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	A focused discourse on a one-dimensional monotone interpolation. The manuscript paraphrases excerpts from the central assertions, examines alternative views and critiques them in order to form own positionality.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	The title of the article is succinct with no ambiguity.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	The abstract should include a detailed methodology, results obtained and a short discussion that obviates alternative treatments especially if the curvature of the interpolation function were not constrained. Key words matter - do not be economical with them.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	The English language is consistent with Grammarly for clear scholarly communication.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	<ul style="list-style-type: none"> ➤ The study should capture results, conclusions and a short discussion. ➤ State who the stakeholders/beneficiaries of the study are. 	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The bibliography is sufficient in scope and scale., sighting relevant recent and old research studies in this field and the referencing is in accordance with an international standard for publishing.
