PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes. Dyslipidemia is the main damaging factor in CAD and T2DM, and an incorrect risk scale leads to frequent underestimation of the disease, resulting in inadequate treatment	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	No. The authors missed to mention that the study included 2 control groups "There were 144 CAD patients in the control group (group II) without HeFH. This group was further divided into subgroup A (n=63), composed of patients who had not taken statins prior to the study, and subgroup B (n=81), made up of patients who regularly took statins at doses prescribed by general practitioners"	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	The article is good constructed, but the authors missed to mention the names of the used abbreviations when they were mentioned for the first time.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The references were recent up to 2022.
