Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =		

Review Form2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	1. Add more recent references from 2010 to 2023. 2. Provide additional examples of unknown design approaches to help the reviewer better understand. 3. The statistical dataset is not clearly defined, and the source of the dataset used to show the results is unclear. 4. Include a section comparing your work with that of other researchers, highlighting the main differences. 5. In the literature review, mention the recent work done so far and identify the limitations that your research aims to address. 6. What are the limitations in reducing energy consumption and waste while addressing various forms of pollution? 7. Define some measurements to show what percentage your research method improves sustainability in development, as this is currently missing.	

PART 2:

	Reviewer’s comment	Author’s comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
