

Review Form 2

Book Name:	Current Research Progress in Physical Science
Manuscript Number:	Ms_BPR_2566
Title of the Manuscript:	Rabi oscillations, entanglement and teleportation in the anti-Jaynes-Cummings model
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The present manuscript provides the information about maximal entangled anti-polariton qubit state. The generation of Rabi oscillation and vacuum-field in the reverse sense will be a useful topic in the scientific world.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is suitable	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript provides detailed calculation for generation of anti-polariton qubit states and the proper method for teleportation. The proposed method will be useful for new scientists in the field of quantum information and technology.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, The references are sufficient.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The language is proper. One should do the proof reading to avoid the typos	
Optional/General comments

PART 2:

	Reviewer’s comment	Author’s comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
