**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</b>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, The scientific community will find the manuscript valuable, especially in the area of medical education. It presents the snowball approach, a relatively new teaching strategy, and provides evidence-based backing.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes but consider the below topic "Effectiveness of Snowball Technique in Teaching Pathology to MBBS Students"	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes, the article's abstract covers everything. It gives a concise background, states the purpose of the research, details the materials and techniques employed, and summarises the results.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	<ul style="list-style-type: none"> <li>i. The introduction might be made shorter and less repetitive.</li> <li>ii. The objectives ought to be more precise. Instead of merely saying, "To evaluate the advantages and disadvantages," for instance, be more specific about the characteristics that will be assessed (e.g., student involvement, knowledge retention).</li> <li>iii. To help readers grasp the snowball approach more clearly, the description may be made longer.</li> <li>iv. Thorough explanation of ethical issues—such as participant informed permission and confidentiality—should be included.</li> </ul>	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	More recent research on the efficacy of the snowball method in teaching might be added to the reference list. Furthermore, it's important to make sure that the citation style is consistent and formatted correctly.
