

[Review Form2](#)

Book Name:	Contemporary Research and Perspectives in Biological Science
Manuscript Number:	Ms_BPR_2901
Title of the Manuscript:	Principal Features of the Epidemiology of Aujeszky's Disease – Suid herpesvirus 1 Infection – in Swine and Cattle.
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Aujeszky's disease represents a significant threat to the pig industry, resulting in considerable economic losses. Notwithstanding the implementation of eradication strategies, the disease persists in certain regions and necessitates control measures. This manuscript presents a comprehensive account of the disease's epidemiological characteristics, rendering it a valuable contribution to the field.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is sufficient.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is technically sound, as it provides a comprehensive account of the illness. It is beneficial that the text includes clear information regarding the modes of transmission of the illness. Furthermore, the inclusion of information regarding the activity of the illness, contingent on its localised viral distribution, is of considerable value.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, it is suitable.	

Review Form2

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	A more detailed general introduction to Suid herpesvirus 1 (SuHV-1) can be provided. A concise overview of the family, species, genetic structure and distinctive characteristics of the virus can be provided. In the event that there are seasonal characteristics associated with the transmission of the virus, these can be delineated. Measures to prevent the dissemination of the virus can be outlined. Information on recent cases of infection and outbreaks associated with the disease can be provided.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
