

BPI Review Form 070520

Book Name:	Research Perspectives of Microbiology and Biotechnology
Manuscript Number:	Ms_BPR_1196
Title of the Manuscript:	Aflatoxin biocontrol effectiveness in the real world— Private sector-led efforts to manage aflatoxins in Nigeria through biocontrol-centered strategies
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, the manuscript on private sector-led efforts to manage aflatoxins in Nigeria through biocontrol-centered strategies is likely important for the scientific community. Aflatoxin contamination in crops is a significant concern globally due to its health and economic impacts. Examining the effectiveness of biocontrol methods in real-world scenarios, especially in a prominent agricultural country like Nigeria, can provide valuable insights into the practical application of these strategies and their potential for scalable solutions. This research could inform policymakers, researchers, and stakeholders working on food safety and agricultural development, contributing to the advancement of knowledge and the development of more effective interventions to mitigate aflatoxin contamination.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Alternate Title: "Exploring the Efficacy of Biocontrol Measures: Private Sector Initiatives for Aflatoxin Mitigation in Nigerian Agricultural Settings" Scientific Title: "Assessment of Aflatoxin Biocontrol Strategies Implemented by Private Sector Entities for Managing Aflatoxin Contamination in Nigerian Agricultural Systems"	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Sections are appropriate, some literature should be added to make the background of study more clear.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	Recent References should be added from last 5 years to make the study updated about the recent changes and advancements.
