

[Review Form2](#)

Book Name:	Research Advances in Environment, Geography and Earth Science
Manuscript Number:	Ms_BPR_2295
Title of the Manuscript:	Application of Analytical Hierarchy Process (AHP) for Landslide Hazard Analysis (LHA) in Kota Kinabalu area, Sabah, Malaysia
Type of the Article	Book Chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Disaster analysis is crucial for the survival and well-being of our world. Both natural and man-made disasters cause significant harm to human lives and property. Effective disaster management relies on thorough analysis and accurate mapping, making these processes essential.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Figure 4, doesn't illustrate any Extremely High Hazard zone. Correct all the information regarding the particular zone in the abstract and the results discussion.	
Are subsections and structure of the manuscript appropriate?	Description about the calculation of weight for AHP and Validation parameters as CI, RI, and CR have to be included	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The authors have employed appropriate techniques and tools to gather and analyze data, ensuring that the findings are reliable and replicable. The manuscript is technically sound, with clear explanations of the methods used and a logical progression of ideas.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	This research area is emerging in the research community. Hence better to add some recent references with the information in the body text.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Language is in acceptable level	
Optional/General comments	Specify the innovative points of this research
