PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.</p>	<ol style="list-style-type: none"> 1. This paper written in 10years back kindly updated citations and references 2. The use of shortcuts, foreign words, and "Franco Arab" (writing Arabic with English letters) on social networks can negatively affect children's command of their native language. 3. Continuous exposure to foreign content may lead to the adoption of practices and values that contradict local traditions and norms, contributing to cultural alienation. 4. The consumption of diverse, sometimes conflicting media can cause confusion in children's understanding of their identity, especially with influences from Western cultures. 5. Children are at risk of being exposed to inappropriate content, such as violence, explicit material, or harmful ideologies, which can adversely impact their mental and emotional development. 6. Excessive use of New Media platforms, particularly social networks and video games, can lead to addiction, impairing children's academic performance and social interactions. 7. Despite its role in connecting people, New Media can encourage isolation as children spend more time online, reducing face-to-face interaction with peers and family 8. While some media promote religious engagement, others may expose children to content that contradicts or weakens their religious beliefs. <p>Children's engagement with social media may expose them to privacy risks, such as sharing personal information with strangers or becoming victims of cyberbullying</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>
