

[Review Form2](#)

Book Name:	Pharmaceutical Research: Recent Advances and Trends
Manuscript Number:	Ms_BPR_2720
Title of the Manuscript:	LC Determination of Diastereomeric Impurities of Entecavir in Drug Substances and Drug Products.
Type of the Article	Book Chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form2

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>LC Determination of Diastereomeric Impurities of Entecavir in Drug Substances and Drug Products.</p> <ol style="list-style-type: none"> 1. There are some examples of statements throughout the article that appear unnecessary or confusing, so many grammatical errors 2. In the abstract, you have to follow the one-word Regression analysis or correlation coefficient throughout your manuscript 3. In liquid chromatography, the r2 value must be 4 digits like 0.9996,0.9997, and 0.9999, etc. 4. Rewrite the following sentence: The method has shown good, consistent recoveries for diastereomeric impurities (95–105%). 5. In the keyword make it : RP-HPLC. 6. Several methods have been developed for the determination of Entecavir and its enantiomers by HPLC, LCMS techniques.... Kindly site the recent articles from Elsevier and Springer Nature 7. So many grammatical mistakes, make a sentence with a ;HPLC, and LCMS techniques. 8. Follow the same reference format throughout the manuscript. 9. In the introduction, add some advanced approaches related to the optimized method. 10. In impurity profiling, provide the UV spectrum, IR spectrum, and peak purity spectrum of all impurities. 11. In Fig 11-14 indicates the axis labels of X - axis, and Y- axis. 12. According to ICH Q2 guidelines, you should perform all the validation parameters, specificity, accuracy, precession, linearity, LOD, LOQ, and Robustness <p>I recommend acceptance of it but requires so many changes in the entire manuscript.</p>	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
