

[Review Form2](#)

Book Name:	<a href="#">Mathematics and Computer Science: Contemporary Developments</a>
Manuscript Number:	Ms_BPR_2725
Title of the Manuscript:	Sequential Mathematical Programming With $\zeta$ -Analysis For HESVM
Type of the Article	Book chapter

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	Being immensely sparse and optimally complex, this Highly Efficient SVM (HESVM) can expertly work on very large and noise-effected complicated data. It is built by imitating the powerful and standard (QP based) Support Vector Machine maintaining optimal complexity	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Yes , Suitable</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>Necessary information is Available.</b>	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>yes</b>	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	With HESVM Extraction of SVs of this LP step with labels S1 and S2 will be identified easily . With this Algorithm classification time is reduced when comparing to using SVM	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	<b>Yes . Sufficient</b>	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	English quality is as per the Book Chapter (Tehncial)	
<b>Optional/General</b> comments	Figure No 1 Title is missing or to be verified
