Book Name:	<a href="#">Pharmaceutical Research: Recent Advances and Trends</a>
Manuscript Number:	Ms_BPR_2794
Title of the Manuscript:	DAILY CLINICAL PHARMACIST ACTIVITIES
Type of the Article	Book chapter

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	Clinical pharmacy aims to optimise the utilisation of medicines through practice in order to achieve person-centered goals. Clinical pharmacists are practitioners who provide comprehensive clinical pharmacy services to achieve medication optimization for patients in all healthcare settings. It is important to promote the value and impact of clinical pharmacy services among health care professionals, scientific societies, health authorities and the public.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title of the book chapter is suitable.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract reflects the content of the book chapter.	
<b>Are subsections and structure of the manuscript appropriate?</b>	Is it advisable to number the sections "4. CONCLUSION"?	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	<p>1) "Given the evolving and dynamic nature of clinical pharmacy practice, the definition avoids listing specific services that may be provided under different labels in different settings" (Dreischulte, T., van den Bemt, B., Steurbaut, S., &amp; European Society of Clinical Pharmacy. European Society of Clinical Pharmacy definition of the term clinical pharmacy and its relationship to pharmaceutical care: a position paper. International journal of clinical pharmacy. 2022. №44(4). P. 837-842. 10.1007/s11096-022-01422-7)</p> <p>I think it is necessary to explain why exactly these types of activities of clinical pharmacists are described in the book chapter. Possibly, present these types as examples of clinical pharmacists' activities.</p> <p>2) The conclusion is about clinical pharmacy practice in hospitals, however, in the text community pharmacies are mentioned. The conclusion should combine all settings.</p> <p>3) The term "drug-related issues" is not common. In Europe «medicine-related problems» or «drug-related problems» are used, in USA – "medication therapy problem".</p> <p>4) In the said context "adherence" is a better term than "compliance".</p>

<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> =	Given the title of the book chapter, the list of references could be improved with some special for clinical pharmacists` activities articles.For example: American College of Clinical Pharmacy. Standards of practice for clinical pharmacists. J Am Coll Clin Pharm. 2023;6(10):1156-1159. doi:10.1002/jac5.1873	
<u>Minor REVISION</u> comments  <b>Is the language/English quality of the article suitable for scholarly communications?</b>	I have no comments.	
<u>Optional/General</u> comments	I support the book chapter devoted to clinical pharmacy.	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
