BPI Review Form 070520

Book Name:	**Theory and Applications of Engineering Research**
Manuscript Number:	**Ms_BP_8608A**
Title of the Manuscript:	**New perspectives on the design of stilling basins**
Type of the Article	**Book chapter**

PART 1: Review Comments

	Reviewer's comment	Author's comment *(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)*
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, design of an efficient stilling basin is an important aspect of hydraulic structures, not just to properly regulate flow but also to ensure safety and longetivity of the structures.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	It is suitable, however, just "Design of Stilling Basins" is better title.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	I think it is.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Though it contains monir grammatical errors, I believe it is good enough.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	I think it should include specific features, advantages and drawbacks of various designs of stilling basins.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	Yes, I think it is.	

PART 2:
