PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	It might be useful approach towards the current scenario. I find it interesting to work on this core area with advancement.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	As the title of the manuscript is long, the people reading it might find it inappropriate. So, make a topic as precise. I can suggest a title like An advanced approach towards African-Levantine Areal.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes, it is correctly framed.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	No, the mode of communication through article must contain the use of simplified version of English vocabulary. Also reconsider the grammatical errors in the paper. The grammar of paper should be rechecked	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	The language can be more simplified and understandable. Also, precise the informations available as the paper is more vast.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The recent references should be cited. Also, remove the repeated paragraphs and concise the paper with more accuracy.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
