**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	The author(s) finding about significant differences in the rate of arterial hypertension prevalence in different schools is very important.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	I suggest to underline somehow the differences in prevalence in the very title	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	It is readable	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Everything looks OK, but for my surprise, author(s) haven't explained the discovered 3-4 fold differences in the prevalence of hypertension in teenagers from different schools. It MUST be done. Without such explanation(s) the submission is not appropriate.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	No. There are several recent publications as about connection of exercises with the overall health (e.g. DOI: <a href="#">10.1038/d41586-024-01200-7</a> ) as well as relationships of arterial hypertension with the blood flow obstructions in the neck area ( e.g. doi:10.1016/j.mehy.2022.110835 and doi:10.3390/polym13234248) which is logical to discuss in the frames of current submission
