

BPI Review Form 070520

Book Name:	New Visions in Medicine and Medical Science
Manuscript Number:	Ms_BPR_38
Title of the Manuscript:	Tube Caecostomy: A Veritable Alternative in the Surgical Treatment of Advanced Appendicitis
Type of the Article	Book Chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	It is valuable in that it deals with a method that can be applied in limited resources regarding complicated appendicitis with its results.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Suitable	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	INTRODUCTION: sufficient findings: sufficient discussion: discussed comparatively with the literature. CONCLUSION: sufficient	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	References are sufficient. However, the number of current references is low. I think that the subject can be ignored because it is a rarely used method. Additionally, the names of the authors of the 12th reference should be written appropriately.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
