**PART1:ReviewComments**

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Isthe manuscript important for the scientific community? Please write a few sentences explaining your answer	This paper discusses the <b>Numerical Study of Flow Past Three Rectangular Rods at Unequal Gap Spacing</b> . Although it is worthy of publication, but it needs a revision before considering for publication in the journal.	
Isthe title of the article suitable? Do you have any alternative Title in your mind?	Yes, I think that the title of the article is suitable	
Isthe abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes, I think that the abstract of the article is comprehensive	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	English language fine. No issues detected	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	<ol style="list-style-type: none"><li>1. The original points must be explained well.</li><li>2. Add the physical meaning of the governing parameter to your discussion.</li><li>3. Add a table or figure of the mesh effect and the type of mesh used.</li><li>4. In the convergence criterion equation, what is the value of <math>\epsilon</math> for your simulation to converge?</li></ol>	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	What in the introduction section, it is necessary to summarize the most recent studies on this subject. The authors can present the current studies given below in the Introduction section.	

**PART 2:**

<a href="#">BPIReviewForm070520</a>	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
