Please provide your comments regarding the appropriateness of different sections of the manuscript.	The Abstract should be based on my suggestion in comment section 3, the introduction too lengthy, introduction should not be more than two pages and should include global perspective of the topic, local perspective, theoretical link, empirica link, problems, policies and need for the study. I did not see any session for literature review In the methodology which formular did you use to determine sample size of the qualitative data, and did you test the reliability.
