

BPI Review Form 070520

Book Name:	<u>Research Advances and Challenges in Agricultural Sciences</u>
Manuscript Number:	Ms_BP_8709A
Title of the Manuscript:	Examining the Impact of Various Nitrogen Concentrations on the Productivity of Diverse Sorghum Genotypes in the Context of Pakistan's Climatic Conditions
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes. This manuscript tells about the improving of the sorghum yield with application of different doses of fertilizers which is an important for the food security and livelihood of the nation.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Needs a little change in the title. -Influence of nitrogenous fertilizers on the yield of diverse sorghum genotypes in arid regions of Pakistan -Effect of nitrogenous fertilizers on the yield of diverse sorghum genotypes -Response of diverse sorghum genotypes for different nitrogenous fertilizers -Evaluation of diverse sorghum genotypes under varying doses of nitrogen fertilizers in semi arid regions of Pakistan.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	No, need the following changes in the abstract. Importance of sorghum cultivation in the Pakistan region should be mentioned. A small portion mentioning the research gap with previous experiments should be addressed.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	No, Need some changes in the abstract and introduction.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Abstract : Appropriate Introduction: Not appropriate (Should be restructured) Material and methods: Not appropriate Results and discussion: Appropriate Conclusion: Need few minor changes	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	Yes
