

BPI Review Form 070520

Book Name:	Current Approaches in Engineering Research and Technology
Manuscript Number:	Ms_BPR_1554
Title of the Manuscript:	Reactive Power Management through Dispatch Analysis using Evolutionary Algorithms
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, manuscripts are important for the scientific community because it building on previous work. Researchers provide detailed accounts of their methodologies, data, and results. This allows other scientists to replicate studies, build on previous work, and avoid duplicating efforts. Manuscripts are vital for the advancement of science, ensuring the quality of research, and the professional development of researchers.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	The title of the article suitable.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	The english quality of the article is suitable for scholarly communications but researchers can improve and use proper grammar. Proper grammar and syntax are essential for readability and professionalism. Errors can distract readers and detract from the credibility of the work.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Not clearly stated research question or hypothesis and Should clearly outline the study's objectives.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The references in the manuscript are proper and sufficient but not recent. References should include the most recent research to ensure the study is built on the latest knowledge. Generally, references from the last 5-10 years are considered recent, though this can vary by field.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
