Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	The topic is so interesting, but the structure needs to be changed, especially the citation of links. The APA style ruleor other similar standard (Webpages & Websites) needs to be reviewed.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is poor, but I can offer an alternative: A brief report on a project based on inclusive education of Greece and Cyprus	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The quotation marks and colons should be removed. The structure of the abstract should be improved.	
Are subsections and structure of the manuscript appropriate?	It should use Arabic numerals to avoid confusion for the reader.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	It is too simple on empirical theory but should be expanded a bit to make the manuscript reliable and credible.I suggest you should create a graphic piece (or figure/image). The whole structure should be improved, for example, why is inclusive education important for doctoral research in Greece and Cyprus? What is the point of researching a small sample of the report? What is the mission and vision of doctoral research results on the leadership of the inclusive education system and UDL?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The reference is incomplete and has errors, especially in the format of links (Webpages & Websites). The drawback is the repeated authors (Ioannidi, V. &Malafantis), which should be a maximum of three, or replace another similar article.
