

Review Form2

Book Name:	Science and Technology - Recent Updates and Future Prospects
Manuscript Number:	Ms_BPR_2107
Title of the Manuscript:	Study on the Effect of Trichoderma viride on Phosphate Solubilizing Microorganisms in Paddy Cultivation with the Combination of Chemical Fertilizer on soil Fertility Parameters
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	The importance of soil fertility in efforts to increase rice production needs to be looked for in the latest applications and this article is quite interesting	
Is the title of the article suitable? (If not please suggest an alternative title)	The titelis related to the content of the article	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	abstracts still need to clearly emphasize the research objectives	
Are subsections and structure of the manuscript appropriate?	it is appropriate but still needs improvement	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	Trichoderma supports each other with microorganisms in managing rice plants to increase production so innovation and solutions need to be sought, especially for good soil fertility by using chemical fertilizers	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form._	The reference is enough but there are still old year that have been used, it's best to replace them with the newest ones five years ago	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	the article suitable for scholarly communications	
Optional/Generalcomments
