

Review Form2

Book Name:	An Overview of Literature, Language and Education Research
Manuscript Number:	Ms_BPR_2116
Title of the Manuscript:	An influence of e-learning practices and competency in assessment on students’ academic achievement
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	The manuscript is very important and timely because of the possible effects it may bring to the educational system. People who might normally be barred from education because of social, economic, or geographic constraints can now access it because to e-learning. This encompasses learners residing in isolated regions, people with impairments, and those with obligations to their families or jobs. Because of researches like this, new approaches and eLearning tools that increase the efficacy and engagement of online learning can be developed.In conclusion, studying eLearning in the classroom is essential to improving education in the digital era in terms of accessibility, efficacy, and quality. However, it should be noted that the references used by the researchers are outdated. Considering that this is a research about the use of technology, references must be updated. Technology improves quickly and new things are constantly being developed which may render the outdated references obsolete.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable for the research paper, however it is advised that the researchers seek advise from a grammarian (English) to further improve the title.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is suggested that the abstract be revised taking into consideration the general rule when writing a research abstract. An abstract should to be entirely self-contained and coherent on its own, without additional citations to the work or other sources. It draws attention to the primary findings, the relevance or significance of your work, the main topic areas, and your research objective. Additionally, it is advised that the language quality used be more scholarly.You need to introduce the subjects clearly before referring to them with pronouns. Antecedents must be clear.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4	The manuscript is very important and timely because of the possible effects it may bring to the educational system. It is also scientifically correct and followed procedures as described on existing researches. However, the use of outdated references may also contribute or affect the

sentences may be required for this part.	overall results of the research.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	Considering that the research topic is about technological use and advancement, the references are outdated. It is advised that the researchers use the most original source possible; and use the most up-to-date and reliable source available. General rule is that references should not be older than five years from date published. The researcher should change the outdated references with the latest ones.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	It is advised that the language quality used be more scholarly. You need to introduce the subjects clearly before referring to them with pronouns. Antecedents must be clear. The researchers should consult and seek advise from an English grammar expert. Alternatively, the researchers may use available softwares for this. There are several grammatical errors, spelling errors, punctuations and writing issues. Word choices should be on the scholarly side and make sentences concise and easily comprehensible.	
Optional/General comments	While the research is very important and timely because of the possible effects it may bring to the educational system, it needs major revisions specifically on the references that the researchers made use of. These are very outdated and may have already been challenged by other recent researches. it should be noted that the references used by the researchers are outdated. Considering that this is a research about the use of technology, references must be updated and new. Technology improves quickly and new things are constantly being developed which may render the outdated references obsolete.	

PART 2:

	Reviewer’s comment	Author’s comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
