Book Name:	Science and Technology - Recent Updates and Future Prospects
Manuscript Number:	Ms_BPR_2170
Title of the Manuscript:	Structure-Gas Transport Property Relationships for Nanoporous Cyanate Ester Resins
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Review's comments The manuscript is good and research material is uptodated. The article contains sound and sofisticated research. Some typing mistakes are present which need to be adressed.	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	I like the manuscript as it meets the crieteria of the good manuscript.It adressess the recent problems of the scientific research. This article establish the realtionship between the structure and their some transport properties like solubility coefficient,defussioncoeffiecint and permiablitycoefficient.Thesenanoporous thermosettingmembranes can be used in diverse areas.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the title of the article is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes the abstract of the article is very comprehensive. It describe the whole work in a good way.	
Are subsections and structure of the manuscript appropriate?	All the subsections andstructure of the manuscript are appropriate and in a organise way.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	The manuscript is scientifically sound as the work is uptodated. The manuscript describes the synthesis of thersmostablenanoporouscyanate ester resins and their anealing. It also describes their structure morphology and transport properties.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :-	The references are recent and sufficient.
