Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	YES, it is scientifically correct. The study evaluates cross-border health measures to combat infectious disease importation between Namibia and its interacting countries, emphasizing the importance of effective health systems and compliance with international laws in ensuring efficient responses.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	YES	

Review Form2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	N/A	
Optional/General comments	Cross-border health measures require a multi-sectoral approach, but obstacles like lack of agreements, operational plans, and joint exercises contribute to infectious disease importation. Prioritizing border health capacities and collaboration efforts is recommended.	

PART 2:
