

Review Form2

Book Name:	Pharmaceutical Research: Recent Advances and Trends
Manuscript Number:	Ms_BPR_2282
Title of the Manuscript:	Clinical Distribution Characteristics of 1439 Carbapenem-Resistant Escherichia coli Strains in China: Drug Resistance, Geographical Distribution, Antibiotic MIC50/90
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	The study is significant because it provides a comprehensive analysis of the spread and resistance patterns of highly drug-resistant <i>E. coli</i> across different regions in China, offering valuable insights into the efficacy of current antibiotics and informing public health strategies for combating this growing threat.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. Spelling mistakes should be corrected.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	The manuscript is scientifically and technically sound because it involves a large and diverse sample size of 1,439 strains, which enhances the reliability and generalizability of the findings. The study systematically analyzes drug resistance patterns, geographical distribution, and antibiotic MIC50/90 values, providing comprehensive insights into the epidemiology of carbapenem-resistant <i>E. coli</i> across different regions in China.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Language quality needs improvement	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
