

Review Form 2

Book Name:	Science and Technology: Recent Updates and Future Prospects
Manuscript Number:	Ms_BPR_2297
Title of the Manuscript:	Simulation of vertical load bearing capability of composite sandwich core geometry using AA3003 aluminum properties
Type of the Article	BOOK CHAPTER

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like this subject of the manuscript, due to the subject is innovative and benefits results received from the analysis. In my opinion, new materials that are lightweight and high strength can be beneficial to the economy of the construction industry. The composite material used in the construction can entire a new window for more research about MDOF systems of the structure.	
Is the title of the article suitable? (If not please suggest an alternative title)	Sure, completely suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, if added a few of the analysis results of elements such as max. Bearing capacity, ariund the strong and weak axis bending etc can be more effective for the reader and comprehensive of valuable paper.	
Are subsections and structure of the manuscript appropriate?	Yes, completely appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	In the construction industry economical materials and flexibility for use on a variety of sections of construction (such as columns, beams and braces) are excellent and important. The composite materials that are mentioned in this manuscript to the construction industry and according to the interesting and great result, we will witness a revolution in the construction industry in the future.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes, it does not any issue.	

Review Form 2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, it is good.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
