Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Langauage/English is pretty difficult for the understanding of non-special needs or disability studies experts. There is seen for it to be writtenin simple plain English	
Optional/Generalcomments	The article is generally very good from the topic conception to the review of literature, research process and methodology, and the presentation of results. Apart from the language that needs to be simplified, the article is recommended for publication without anyother reservations.
