

Review Form2

Book Name:	Pharmaceutical Research: Recent Advances and Trends
Manuscript Number:	Ms_BPR_2559
Title of the Manuscript:	Telemedicine in Times of COVID-19 Pandemic: A Prospective Outcome Study
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	Yes, interesting article.The COVID-19 epidemic has transformed healthcare delivery, accelerating the introduction of telemedicine. As lockdowns and social distancing measures became the norm, telemedicine emerged as a critical tool for maintaining continuity of treatmentwhile minimizing the risk of virus transmission.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I think so, there is a need for some points to discuss that are missing,Despite its numerous benefits, telemedicine faced certain challenges during the pandemic	
Are subsections and structure of the manuscript appropriate?	Yes, Suggestion- In the abstract, there is a written heading discussion in place of the conclusion.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	This study examines the effectiveness of telehealth services in providing healthcare during the COVID-19 pandemic. By minimizing direct physical contact, telehealth reduced the risk of COVID-19 transmission. Telemedicine doctors were able to assess patients' conditions, gather medical histories, and prescribe appropriate medications based on symptoms. This approach proved to be affordable, time-saving, and accessible to a wide range of individuals. Moreover, telehealth services provide valuable health advice to those with poor health, improving their quality of life.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	Add a few latest references	

Review Form2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Need Correction	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
