

Editor's Comment:

Book Name: Mathematics and Computer Science - Contemporary Developments

I have gone through the Book Chapter (Manuscript) Title: Dynamics of HIV Infection of CD4+T Cells: A Fractional Approach.

Also seen the review reports and updated version and found that this well written and of profound scientific interest for medical sciences and epidemiologist interested in the mathematical modeling of HIV ,I strongly recommend that this work should be published as a book chapter of the book Mathematics and Computer Science - Contemporary Developments.
