Review Form2

Minor REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	1) In Non-Surgical Treatment: Please include details on the types of orthodontic appliances available, along with photos or schematics of these devices. Additionally, describe the advantages and disadvantages of each appliance and their appropriate use. This information is crucial for readers to make informed decisions on which device to select. 2) Splint Therapy: The paper mentions combining splint therapy with regular oral exercises and massages. Please provide specific details on the exercises, massage techniques, and any precautions that should be taken. 3) Dieffenbach's Commissuroplasty: While there is a diagram for this procedure, it would be helpful to include schematics for the other surgical techniques as well, possibly by citing other papers, if copyright or space constraints are a concern. 4) Post-Operative Care: Please discuss the selection of moisturizers, dressing materials for the wound, and medications for the prevention of hypertrophic scars, especially for immediate post-injury care.
