

Review Form2

Book Name:	Chemical and Materials Sciences: Developments and Innovations
Manuscript Number:	Ms_BPR_2362
Title of the Manuscript:	SOLVENT EXTRACTION OF CHROMIUM (III) USING TRIBUTYLPHOSPHINE OXIDE
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This present study attempt to study systematically the extraction of Cr (III) from different acid media by TBPO dissolved in chloroform. Thus results obtained are discussed in the present study are important to the scientific community	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is relevant	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The following should be in the abstract Background (2-3 sentences) - Aim/objectives (number these) - Methods (3-4 sentences) - Results (3-4 sentences) - Significance of results (1-2 sentences)	
Are subsections and structure of the manuscript appropriate?	Yes however under procedure line 1 and other sections there should be space between figures and units	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	There is evidence in literature that the extraction of Cr (III) has been carried out by using different extracting systems. As there are no reports available on the extraction of Cr (III) with TBPO as extracting agent, This present study attempt to study systematically the extraction of Cr (III) from different acid media by TBPO dissolved in chloroform. Thus results obtained are discussed in the present are important to the scientific community	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References need to be written in same format. Reference 17 is in capital letter Most cited references are older than 10 yrs . There is need to add more recent references	

Review Form2

=		
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Language is ok	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
