| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.                        | The authors have propectively analyzed 50 cases of depressed skull fractures in their institute and reported surgical outcomes and management. Depressed fractures are common entities in neurosurgical practice with numerous papers stating clear guidelines regarding surgery. This is well written and described clearly as per title of the paper. |                                                                                                                                                                            |
