

Review Form2

Book Name:	Mathematics and Computer Science: Contemporary Developments
Manuscript Number:	Ms_BPR_2693
Title of the Manuscript:	A computer-based image analysis for tear ferning featuring
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	This Manuscript gives complete details of dry eyes behaviour which is very important for humans. Manuscript is well written and analysed. It’s a complete research.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, Title should not represented complete details of manusript.Title can be changed as “FFT based classification of tear ferning by image analysis”	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract should represent Introduction, Material and Methods and Results and Dicussion sections. Can be modified if appropriate	
Are subsections and structure of the manuscript appropriate?	Real recent images of dry eyes can be used as reference imagesrather than old images. Image data set number used is very less atleast 1000 images gives good results. Mean number of 1000 dataset images can be used for classification.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	Technically robust in gray level co-occurrence level matrix part but power system part take the comments of second reviewer	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :-	No, Look suffieciет references are there	

Review Form2

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes. Language can be more explanatory for understanding in low English speaking countries	
Optional/General comments	No RGB real images in manuscript. Real images gives useful contributions to medical community	

PART 2:

	Reviewer’s comment	Author’s comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
