	Reviewer's comment	Author's comment <i>(If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)</i>
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes. The manuscript describes an often overlooked and undertreated clinical presentation in PLHIV – CNS infections.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	I think the title could be improved to 'Clinical Characteristics of Central Nervous System Infections in Ecuadorian Patients with AIDS'	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	It is comprehensive but I suggest a review according to my comments on the text document attached, review the conclusion of the abstract and align with conclusion of the full text.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	I would suggest an English language revision	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Please refer to the manuscript text attached where I made various suggestions and corrections as necessary	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	So far the references are fine – my only suggestion would be to see if a similar study was done in the countries in the region other than Brazil.
