PART 1: Review Comments

| Compulsory REVISION comments                                                                                                                                                                                                         | Reviewer’s comment                                                                                                                                                                                                                                                      | Author’s Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.                        | When validated, the biological markers described in this manuscript can provide clinicians with additional feedback to estimate the imminence of weight-related complications.                                                                                          |                                                                                                                                                             |
| Is the title of the article suitable?<br>(If not please suggest an alternative title)                                                                                                                                                | Yes, the title of the article is appropriate.                                                                                                                                                                                                                           |                                                                                                                                                             |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.                                                                          | The addition of the manuscript's abstract includes the full text.                                                                                                                                                                                                       |                                                                                                                                                             |
| Are subsections and structure of the manuscript appropriate?                                                                                                                                                                         | Yes, the structure of the manuscript is adequate                                                                                                                                                                                                                        |                                                                                                                                                             |
| Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part. | Restoring physiological levels of the phylum Bacteroidetes through various strategies can attenuate or reverse overweight in chronic psychiatric patients and provide the clinician with additional feedback to estimate the imminence of weight-related complications. |                                                                                                                                                             |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.                                                                                                  | After consulting databases, the references are now sufficient and recent for the publication of the manuscript.                                                                                                                                                         |                                                                                                                                                             |
| Minor REVISION comments<br><br>Is the language/English quality of the article suitable for scholarly communications?                                                                                                                 | The quality of the language/English in this manuscript is suitable for academic communications                                                                                                                                                                          |                                                                                                                                                             |
| Optional/Generalcomments                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                         |                                                                                                                                                             |
