

Review Form2

Book Name:	Medicine and Medical Research: New Perspectives
Manuscript Number:	Ms_BP_6836E
Title of the Manuscript:	ACCIDENTAL INSTRUMENT ASPIRATION IN GERIATRIC PATIENT: A CASE REPORT
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	The paper is well-written and provides valuable insights into a significant issue in dental practice.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is clear and relevant to the content of the paper. It directly addresses the issue of accidental dental instrument aspiration, which is a critical concern in dental practice.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	he abstract effectively summarizes the main points of the paper. It provides a brief introduction, outlines the case report, and concludes with the importance of preparedness and preventive measures. However, it could benefit from a more structured format. For instance, breaking down the abstract into sections like Background, Case Presentation, and Conclusion could make it more reader-friendly and ensure that all critical points are highlighted	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	The discussion could benefit from a more focused comparison of the case presented with similar cases in the literature. This would provide a better understanding of how common such incidents are and how they are typically managed.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Ensure that the language used is formal and academic throughout the paper. For instance, replacing phrases like "patient was promptly shifted" with "the patient was immediately transferred" could improve the tone.	
Optional/Generalcomments
