

BPI Review Form 070520

Book Name:	Research Perspectives of Microbiology and Biotechnology
Manuscript Number:	Ms_BPR_1730
Title of the Manuscript:	Biosynthesis and Characterization, Antioxidant and Antimicrobial Activities of Selenium Nanoparticles from Ethanol Extract of Bee Propolis
Type of the Article	Book chapter

PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, it is important for new researchers aboututilization and application of Biosynthesis of selenium nanoparticles (SeNPs) in various fields of scientific research.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes, it is suitable.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes, it is comprehensive about introduction results and aim of the study in short.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes, it is appropriate.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Yes, it is appropriate about introduction results and aim of the study in short.	
Do you think that the references in the manuscript are proper, recentand sufficient? If you have any suggestions, please write here.	I think the list of references need to updates.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
