Are subsections and structure of the manuscript appropriate?	**Sub-sections under the main heading of** Approaches of Independent English Learning through the Internet **include very limited information and I think they need to be merged under appropriate sub-titles regarding the content. Moreover, this section needs an introductory paragraph on the approaches since the sub-sections are not about the approaches but some tools. I think this section needs to be re-written. What is more, differnces between traditional learning, learning through internet and the connection of this issue with independent learning should be touched upon in a paragraph at the beginning of the chapter.**

<u>Minor</u> REVISION comments **Is the language/English quality of the article suitable for scholarly communications?**	**The language of the manuscript needs to be revised thoroughly. There are many grammar, spelling, and typo errors and they are uncountable. The author(s) may resort to some programs like Grammarly, check the language use and rewite the manuscript. There are even typo errors like " instead of ', and this is unacceptable for a book chapter.**	
Optional/Generalcomments	**This article needs a careful revision.**
