| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.                        | This manuscript is crucial for the scientific community as it addresses the diagnostic complexities of glandular odontogenic cysts, a rare and often misdiagnosed lesion. By shedding light on the distinguishing histopathological features and the potential for diagnostic errors, the paper underscores the need for a meticulous and multidisciplinary approach in clinical practice. I appreciate this manuscript for its thorough examination of the diagnostic challenges, which not only enhances our understanding of GOC but also contributes to improving patient outcomes by guiding accurate diagnosis and treatment. The clarity and depth of the analysis make it a valuable resource for both clinicians and researchers in the field. |                                                                                                                                                             |
| Is the title of the article suitable?<br>(If not please suggest an alternative title)                                                                                                                                                | Unraveling the Diagnostic Complexity of Glandular Odontogenic Cysts                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                             |

| Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part. | This manuscript is scientifically robust and technically sound due to its comprehensive approach to the diagnostic challenges of glandular odontogenic cysts. It meticulously reviews the relevant literature, incorporating a wide range of clinical, radiographic, and histopathological data to support its analysis. The authors employ a rigorous methodology, including the use of advanced diagnostic techniques such as immunohistochemical staining and molecular analysis, to substantiate their findings. The manuscript's strength lies in its evidence-based discussion and clear presentation of complex information, making it a reliable and valuable contribution to the field.                                                        |                                                                                                                                                             |
