

Review Form2

Book Name:	<u>Recent Developments in Chemistry and Biochemistry Research</u>
Manuscript Number:	Ms_BPR_2320
Title of the Manuscript:	GC and GC-MS Detection of Alkyl Mesylates in Active Pharmaceutical Ingredients
Type of the Article	BOOK CHAPTER

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	As this article is book chapter author need to modify it according to it , all content in abstract are not as per book chapter concept need some change	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable but heading is research article but need to book chapter	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need some addition as per Heading	
Are subsections and structure of the manuscript appropriate?	As research article it is appropriate but as book chapter need some modification	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	A highly responsive GC / GC-MS method for the trace analysis of MMS, EMS, IMS, and HMS in pharmaceutical drugs has been developed and validated according to ICH guidelines. The FID used in this method is readily available in most testing laboratories in the pharmaceutical industry and is relatively simple to use.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Add few more references	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Need some grammar changing	
<u>Optional/General</u> comments
