	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes. The topic of early diagnosis of cancer with minimal invasive tools is of particular interest, amnd as for Biliary Tract Cancer (BTCs) which is common and malignant neoplasm.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	yes	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	There are minor issues highlighted in the pdf file of the MS.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	The organization of the MS is appropriate, however, the sections and the MS itself is too short as a book chapter. I think the MS can benefit from adding appropriate figures and tables. A section for introduction of microfluidic devices and nanobiosensors and respective figures for BTC could add to the value of the chapter.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	Yes.
