BPI Review Form 070520

PART 1: Review Comments

	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, the manuscript important for the scientific community.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes, the title is suitable. However, it would be appropriate if it is a review paper.	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	No. It needs some statistical results assessing the quality of higher education.	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes, the article is suitable for scholarly communications.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Under section 2, kindly consider also public Higher Education in this case. Also present a graph showing how many are private and public universities right now in India and estimated number of enrolees are there for comparison. What are the common courses being offered? What is the status based of Indian Universities based on the latest QS World Ranking/Times Higher Education (THE) Ranking, WURI, etc? You could show this in a table. Under the quality of education section, a framework or paradigm on Outcomes Based Education (OBE) must be included to see the relationship between factors affecting the quality of education. Under the Important Factors on Quality Education, it must present some historical statistical survey or evaluation on how they assessed each factors from the universities from India. Which of these factor/s is/are crucial that needs to be improved and strengthened? Aside from research and extension, include also Production, Internationalization and Industry-Academe Partnershipsas another factors. You could refer also to QS World Ranking, Times Higher Education (THE) criteria for your basis. It would be better if there are sample case studies on this topic. The findings from the two comments must also be reflected in the Conclusion part.	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	I suggest if you could include at least five latest references.	

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
