Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimumof 3-4 sentences may be required for this part.	Early post operative discharge is important and practised all over the world now , the study is important.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title needs adding the type of the study	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is clear and to the point , but "41(2.8%), 15(1.1%) from study group" , why there are two numbers here ?	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimumof 3-4 sentences may be required for this part.	I have a note about the methodology , the contro; group was about pt who refused early dischare , so how the author was able to compare satisfaction in both groups while not randomly assigned ?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	The references are old , most resent one since 2009
