

[Review Form2](#)

Book Name:	Chemical and Materials Sciences - Developments and Innovations
Manuscript Number:	Ms_BPR_1932
Title of the Manuscript:	Artificial Neural Networks Modeling of Dynamic Adsorption From Aqueous Solution
Type of the Article	Book Chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript is useful as it provides or uses latest technologies like ANN in the field of chemistry were the technology helps for getting better results	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of this article is comprehensive	
Are subsections and structure of the manuscript appropriate?	The structuring of the manuscript is appropriate	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The manuscript is scientificall correct asit includes latest technologies like ANN . Moreover the parameters used for comparision are good and better analysis is obtained from the comparision	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	More latest references should be included.	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	Nil
