Book Name:	<a href="#">Recent Developments in Chemistry and Biochemistry Research</a>
Manuscript Number:	<b>Ms_BPR_1208</b>
Title of the Manuscript:	<b>Physicochemical Properties and Determination of Some Bioactive Phytochemical Constituents From Linum Usitatissimum L Oil (Flaxseed) by Gas Chromatography-mass Spectrometry (GC-MS) and Atomic Absorption</b>
Type of the Article	<b>Book chapter</b>

**General guidelines for the Peer Review process:**

This Book's peer review policy states that **NO** manuscript should be rejected only based on '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

**To ensure a high-quality review, reviewers are rated on a 5-point scale and reviewers with an average of 3 or more points will be included in the Annual Peer Reviewers' Hall of Fame. Please see details of the Annual Peer Reviewers' Hall of Fame here:**

One point is assigned for each of the following:

1. The reviewer responded to the review invitation within the requested time frame.
2. The reviewer reviewed the manuscript within the requested time frame.
3. The review addressed all aspects that were asked for in the reviewer guidelines.
4. The reviewer gave suggestions to improve the revised version
5. The review was written in a friendly and encouraging way.

**Special note:**

A research paper which has already been published in a journal can be published as a Book Chapter in an expanded form. This is acceptable in the academic world.

**Source Article:**

**This chapter is an extended version of the article published by the same author(s) in the following journal.**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	Yes, the manuscript is important for the scientific community. It provides a detailed and comprehensive analysis of flaxseed ( <i>Linum usitatissimum</i> L.), which is a valuable source of oil and bioactive compounds. The manuscript covers various aspects including physicochemical properties, fatty acid composition, bioactive phytochemical constituents, and mineral content. These aspects are crucial for understanding the nutritional and health benefits of flaxseed.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	Yes	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Yes	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	Yes	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Nice	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	Yes
